

### "Steady Rest" Shooting/Hiking Staff

Light weight 7075 aircraft grade aluminum shaft weighs less than 8 ozs. 3 section pole extends from 24" to 61" to enable you to shoot over vegetation or on uneven hill sides. Positive locking cams insure a solid lock at any length. Detachable rifle rest. Rifle rest securely cradles rifle stock for a steady aim under any condition. Threaded 20mm handle stud allows a quick change from camera mount to rifle rest. Sure-grip rubber handle grip. Black mat finish will not reflect light toward game. Snow and Tundra basket included. Rubber tip protector included for hard surfaces. Steel Tip for secure hold on rocky surfaces. Use with any rifle, pistol, shotgun or muzzle-loader. Each with color insert. Packed in blister card with insert label.
